Mail'n Ship Station

The Practical And Versatile Choice

quadient
Because connections matter.

Mailing, Shipping And Accounting From A Centralized Workstation

Quadient's new Mail'n Ship Station revolutionizes mail processing and reporting.

Dynamic business environments count on powerful tools to send out communications quickly and effortlessly. Quadient's IN-600H Mail'n Ship Station delivers it all, with fast, reliable and easy-to-use lettermail and parcel processing. With state-of-the-art technology, whisper-quiet operation and **MYQUADIENT** online tools at your fingertips, the IN-600H is the best-in-class solution to meet all your mailing and shipping requirements.

The IN-600H is powered by RunMyMail software, creating an unparalleled user experience. All the features from the Mail'n Ship Station's control panel are accessed from a PC, making it easier and faster to get the job done.

- Find and select Canada Post lettermail services
- View ink levels, postage account balance and add postage funds to your meter
- Set-up, preview and modify system settings
- Select and change weighing modes and accounting departments
- Add custom graphics to your envelopes

Quadient and Bullfrog Power®

Quadient is proud to be partnered with Bullfrog Power, Canada's leading green energy provider.

By choosing Bullfrog Power's green energy for all our Canadian facilities, Quadient is reducing its environmental impact and supporting the growth of green energy projects in Canada.

This multi-year partnership will also see Bullfrog Power's generators inject 100% green electricity back into the grid to match the power consumption of all Quadient Mail'n Ship Stations installed at new customer locations.

Mail'n Ship Stations powered by green energy are a first for the industry in Canada and demonstrate Quadient's commitment to include all stakeholders in its sustainability efforts.

1. Power-assisted hand feeder with automatic sealing ensures all your outgoing mail is processed accurately with a perfect envelope seal, every time

2. Integrated Automatic Label Dispenser prints labels for items under 500 grams that cannot fit into the mixed-sized power feeder

3. High speed LAN or wireless internet connection to receive the latest postal rates, software updates, custom graphics and low ink alerts

4. Integrated, Extendable Catch Tray holds a variety of items from postcards to 10" x 13" envelopes

6. Optional External Weighing Platforms with Differential Weighing handle the heaviest parcels and over-sized packages with ease

5. Pair the IN-600H with NeoShip to automate weight calculations for your parcels, documents and oversized packages

 **RunMyMail**

The IS-5000 maximizes efficiency by centralizing all mail centre operations into a single workstation.

 **neoship**
by Quadient

NeoShip provides the flexibility of printing Canada Post approved shipping labels from any office or thermal label printer.
